

The Qur'anic Operationalisation of the Container Metaphor

Stage 4 (ḡaḍab) → Stage 5 (ḡayẓ + kaẓm) → tamayyuz manifestation (Q. 67:8)

Stage 4 — ḡaḍab

Open container

Anger present, not yet compressed

Stage 5 — ḡayẓ + kaẓm

Sealed container

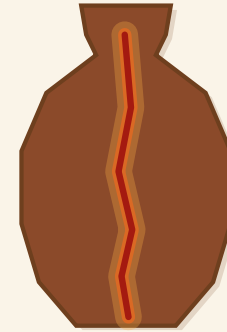

والكاظمين الغيظ

Q. 3:134 — 'those who restrain anger'

Stage 5 manifestation — tamayyuz

Structural rupture

تكاد تميز من الغيظ

Q. 67:8 — 'almost parts asunder from fury'

The Qur'an renders all four steps of the Lakoff–Kövecses (1987) container schema: present, pressurised, regulated, ruptured. In Panel 3, the vessel itself parts — not its contents.
